

SUSHOVAN JANA

Aspiring Java Backend Developer

+91 (933) 025 0635 | janasushovan5@gmail.com | <https://github.com/sushovan-jana> | <https://www.linkedin.com/in/sushovanjana/>

PROFILE SUMMARY

Java Backend Developer with experience in building scalable backend systems, Spring Boot applications, and REST APIs through academic and training projects. Skilled in designing layered backend architectures, database schemas, and API endpoints using Spring Security, JWT, and MySQL.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript (ES6+)
Backend Technologies: Spring Boot, Spring MVC, Hibernate, JDBC, REST APIs, Spring Security, JWT Authentication
Database Systems: MySQL
Concepts & Architecture: OOP, MVC Architecture, CRUD Operations, Backend System Design, API Design, Authentication & Authorization
Tools & Version Control: Git, GitHub, Maven, Postman

PROJECTS

OTP Authentication System

GitHub: <https://github.com/sushovan-jana/spring-boot-learning/tree/main/sb-13-otp-auth>

- Built stateless OTP-based authentication using Spring Security to enable 2-factor token-based verification.
- Configured email OTP-based verification and session validation to secure 100% of user authentication flows.
- Architected decoupled authentication flows for login systems, separating verification logic from 2 core identity services.

Backend Login Application

GitHub: <https://github.com/sushovan-jana/spring-boot-learning/tree/main/sb-16-backend-login-app>

- Designed layered backend architecture consisting of 3 core layers (Controller, Service, and Repository) to isolate routing, business logic, and database access.
- Implemented secure REST API system with MySQL integration, including 15+ database validations and structured error handling.
- Engineered REST APIs for authentication and user management, securing endpoints with Spring Boot frameworks to handle 50+ concurrent requests during local testing.

SwasthyaLipi Healthcare System

Live: <https://swasthyalipi.com/>

- Created SwasthyaLipi, a full-stack healthcare appointment booking platform with a real-time scheduling system, reducing appointment double-bookings to 0%.
- Structured relational database schemas with 10+ relational tables to manage appointments, patient records, and scheduling constraints.
- Deployed the live web application to production, managing end-to-end hosting and 2 database environments.

TRAINING EXPERIENCE

Java Full Stack Development Training

2025 – 2026

KodNest Academy

Certificate: <https://github.com/sushovan-jana/Certificates/blob/main/Java%20Full%20Stack%20Development.pdf>

- Completed a structured training program focusing on Core Java, Advanced Java, Spring Boot, Hibernate, JDBC, MySQL, and JavaScript (ES6+) over 6+ months.
- Built 3+ backend applications using Spring Boot and REST APIs with MVC architecture.
- Solved 100+ Data Structures and Algorithms (DSA) problems to strengthen algorithmic problem-solving capabilities.

EDUCATION

Elitte College of Engineering

2021 – 2025

Bachelor of Technology in Computer Science and Engineering

CGPA: 7.97/10

Paniparul Mukteswar High School

2019 – 2021

Higher Secondary

CGPA: 9.13/10

Gyandeep Vidyapith

2018 – 2019

Secondary Examination

CGPA: 9.46/10

CERTIFICATIONS

Java Programming (Core & Advanced) - Udemy | 2026

Certificate: <https://github.com/sushovan-jana/Certificates/blob/main/Java.pdf>

JavaScript (ES6+) - Udemy | 2024

Certificate: <https://github.com/sushovan-jana/Certificates/blob/main/JavaScript.pdf>
